Project Name	Rising Waters - Flood Prediction ML
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Notices heavy rainfall warnings • Opens the Rising Waters app • Enters current weather readings	• Submits rainfall and humidity data • Waits for prediction result • Reviews flood risk output	• Shares result with team/authorities • Plans evacuation if High Risk • Monitors updates regularly
Touchpoint <i>What part of the service do they interact with?</i>	• Web browser (Home page) • Input form	• Prediction result page	• Notification / advisory action
Customer Thought <i>What is the customer thinking?</i>	• 'I hope this gives an accurate warning' • 'This is quick and easy to use'	• 'The result seems reliable' • 'I can act on this immediately'	• 'This tool could save lives' • 'I should check this regularly during monsoon'

Customer Feeling <i>What is the customer feeling?</i>	Concerned, cautious	Relieved, informed	Confident, prepared
Process Ownership <i>Who is in the lead on this?</i>	Meteorologist / Disaster Response Team	Meteorologist / Disaster Response Team	Meteorologist / Disaster Response Team
Opportunities <i>How can we improve this stage?</i>	• Add multi-language support • Faster form loading	• Add confidence score with prediction • More visual risk indicators	• Add SMS/email alerts • Historical prediction log
